Produkt: 09374 12 005 500

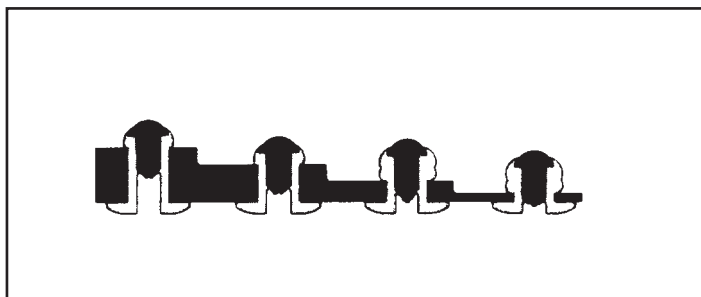

BLINDNAGLE 4,0X12 ALU/STÅL

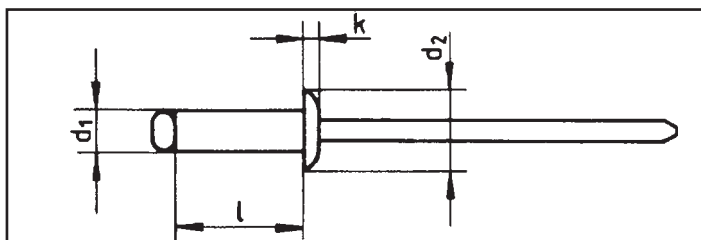

Stort klemområde = reduksjon av antall dimensjoner

Garantert fylling av borehullet gir den beste nagleforbindelsen

Garantert at spikeren blir låst fast i hylsen

Nagledimensjoner angis som  $d_1 \times l$ . Andre nødvendige data må også spesifiseres.

$d_2$ : Hodediameter  
 $k$ : Hodehøyde

## Zebra blindnagler

**Sikre forbindelser over stort klemområde som reduserer lagerholdet**

### Høy kvalitet i nagleforbindelsen

- Gir høye uttrekks- og skjærkraftverdier
- Slagfaste, sprutsikre forbindelser

### Enkel montering

- Spesiell nagleutforming gir god fylling av borehullet
- Bearbeides med Zebra blindnagletang eller med trykkluft-nagletang
- Reduserer muligheten for feil i nagleforbindelsen

### Anvendes bl.a. av:

Blikkenslagere, elektromontører, mekaniske verksteder, bil-, karosseri- og plateverksteder

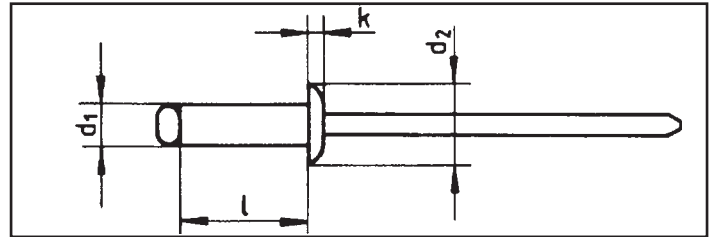

**Art. gr. 0915 , 0916 , 0914 , 0937 , 0935**

# Blindnagler

## Den sikre forbindelsen

- Sterk og sikker forbindelse
- Vibrasjonssikker
- Ingen etterbearbeiding
- Tåler høye radial- og aksialbelastninger
- Gir mulighet til å montere sammen store plater

## Blindnagler

med flatt, rundt hode, DIN 7337
