

Supplier declaration of Substances of Very High Concern In articles produced for HORN Bordplader A/S

HORN Bordplader A/S are contacting our suppliers to ensure that they are aware of the Substances of Very High Concern (SVHC), and ask whether any of the supplied products (and associated packaging), which you supply us with could be affected.
Further information can be found through the official [ECHA homepage](#).

There are two lists of SVHC that trigger obligations.

1. The first are those listed in [REACH Annex XVIII: REACH Restricted Substances List 2018](#).
2. The second is the [Candidate List of SVHC](#), where suppliers upon supply of articles containing substances on the Candidate List in a concentration above 0,1% weight by weight, must provide sufficient information and documentation to their business customers on safe use, and as a minimum, the name of the substances. Note that the Candidate List is updated on a regular basis.

As required by the regulations, we kindly ask you to complete this declaration and sign below as indicated.

We Kuonospan A/S confirm that none of the products (and associated packaging) we manufacture and supply to HORN Bordplader A/S contain SVHC as listed in the official candidate list published by ECHA. Should the situation change HORN will immediately be informed. Sufficient information/documentation on articles containing substances on the Candidate List, in a concentration above 0,1% weight by weight, is provided.
