

Template for projects registered from 14.03.2012

EPS

Own declaration that used EPS meets the minimum requirements for environmental toxins in the BREEAM-NORs checklist A20

This form is to be filled out and signed by a legally responsible on the part of the producer of the EPS (expanded polystyrene), such as technical manager or General Manager. Substances that should be avoided are not to be found in the product, either in the open, the bottom or natural form. Concentrations below the limit value 0.1% are accepted. Checklist A20 is attached, it is understood that the information in the A20 list is known. Note the date on the Declaration form must match the current process note in the specified period of time. Erroneous information can get the legal aftermath.
