

Product data sheet

SIGA-Twinet®

Updated on: 30/12/2016

Distributor: SIGA

Type of application: double-sided adhesive tape for the pre-installation of vapour control layers on hard substrates

Instructions: see manual

Construction: thread-carrier, 0.35 mm thick with SIGA high-performance adhesive

Packaging unit: 10 rolls / box

Characteristics:

		Standards	Units	Values
Dimensions	length / width length / width		m m	50 0.02
Temperature resistance			°C	-40 °C to +100 °C
Processing temperature			°C	from -10 °C
Diffusion-equivalent air layer thickness s_d		EN 1931	m	2
Ageing resistance	high permanent adhesive strength, non-drying and non-embrittling since without caoutchouc, resin or solvent, can reliably and durably follow structural movements			
Suitability for storage	unlimited
