

Uponor MLC Modulsystem 63 - 110 mm - En revolusjon innen installasjon!

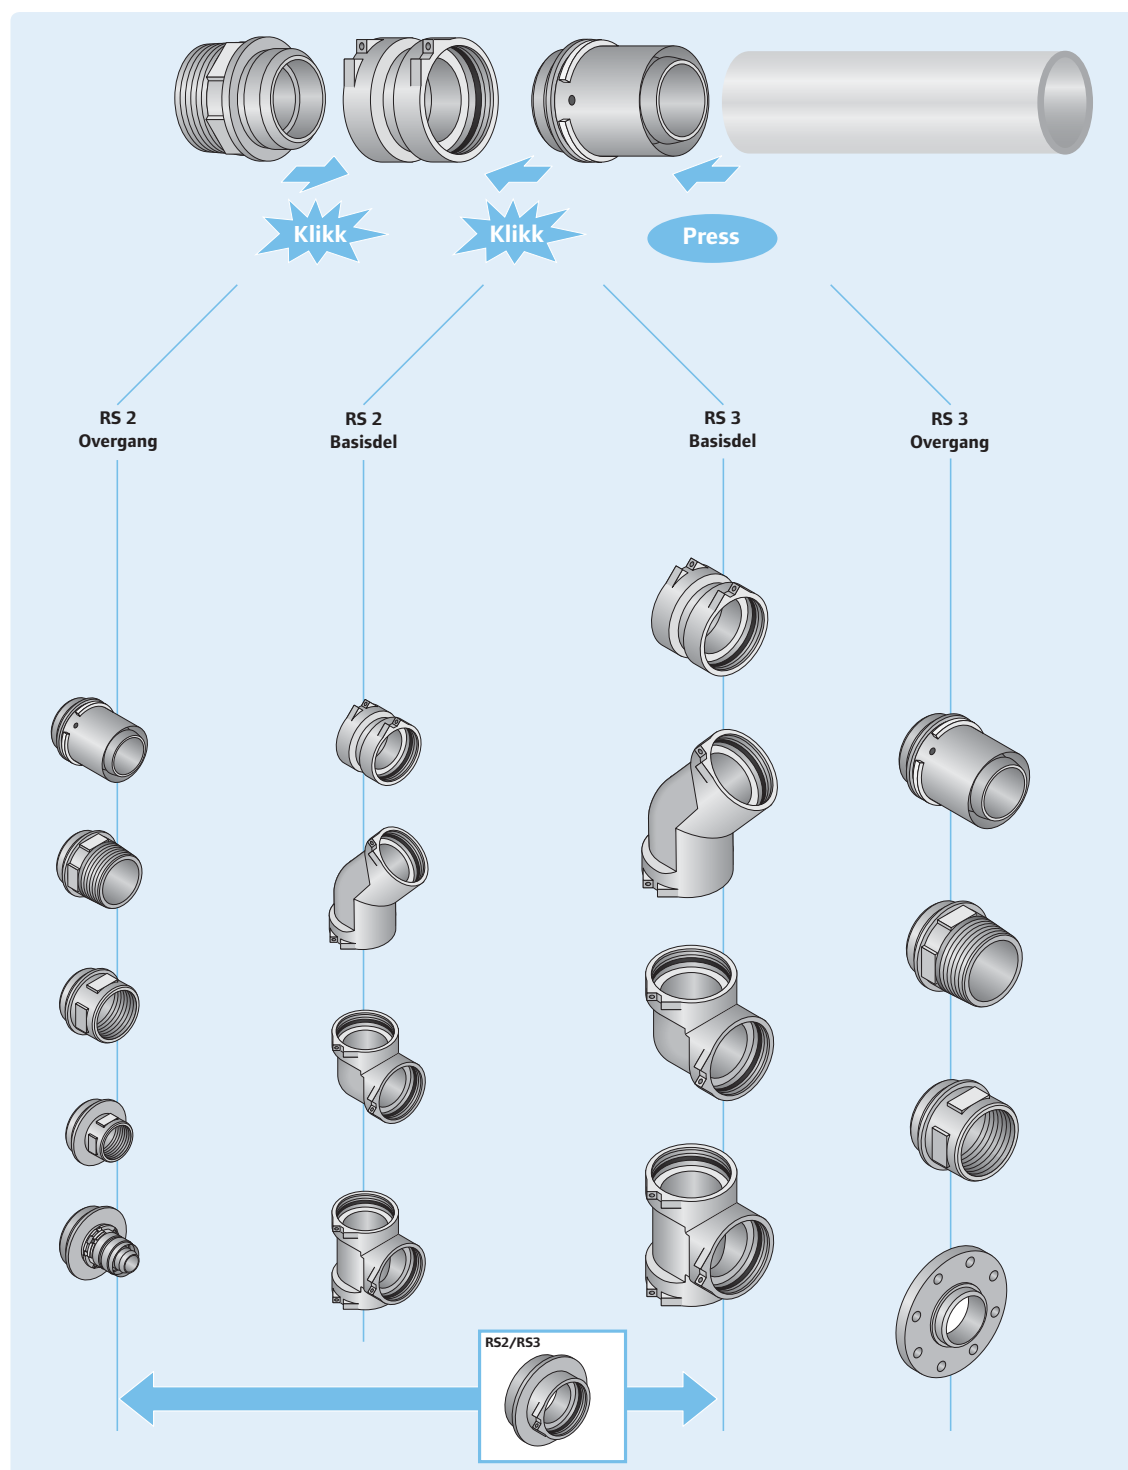

Nytenkning

Uponor MLC Modulsystem 63 - 110 mm - Modulsystemet som takler alle utfordringer

Maksimal fleksibilitet med kun 26 deler

Uponor MLC Modulsystem 63 - 110 mm består av få komponenter, hvor alle er tilpasset hverandre. Delene som er til rådighet dekker alle størrelser som er nødvendige for å bygge opp et komplett modulsystem.

Det nye Uponor MLC Modulsystem 63 - 110 mm: Enkel montering, fleksibel planlegging og optimalt innkjøp

Enestående og innovativt modulsystem revolusjonerer installasjonsteknikken. Modulært fittingsystem med gjennomtestet pressteknikk for rørforbindelser opp til Ø 110 mm!

Det nye Uponor MLC Modulsystem - Modulært design for alle tenkelige kombinasjoner:

- Kun 26 systemkomponenter muliggjør hundrevis av variasjoner.
- Nytt koblingskonsept: Basisdeler og tilhørende overgangssatser i messing.
- Gjennomtestet pressteknikk for rørforbindelser.
- Ny type stikkforbindelse mellom basisdel og overgang.
- Ekstraverktøy er ikke nødvendig
- Man kan bruke det velkjente pressverktøyet UP 75 helt opp til Ø 110 mm

Uponor MLC Modulsystem muliggjør med kun 26 systemkomponenter alle mulige forbindelser og erstatter 300 fittings.

Basisdeler og overgang muliggjør alle tenkelige forbindelser.

Mye større fleksibilitet med færre deler.

Sjeldne forbindelsestyper løses enkelt med Uponor Modulsystem 63 -110 mm.

Én prosedyre på alle oppgaver

På grunn av modulsystemets oppbygning, består alle koblinger av de samme 5 trinn. Pressverktøyet blir kun benyttet til press og denne arbeidsgangen kan derfor enkelt gjennomføres på arbeidsbordet. Det er ikke lenger nødvendig å stå i ubekvemme arbeidsstillinger for å kunne gjennomføre koblinger.

Press ganske enkelt det avtagbare og kalibrerte Uponor MLCP rør inn i overgangen.

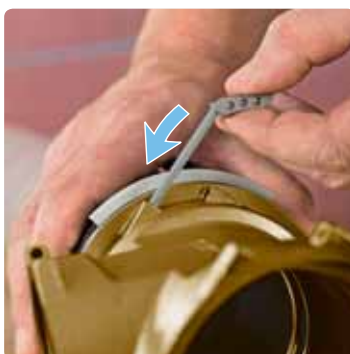

Press.

Stikk den forberede rørforbindingen inn i basisdelen.

Selv på vanskelige steder er monteringen enkel å gjennomføre.

Stikk låsestiften inn i fittings.

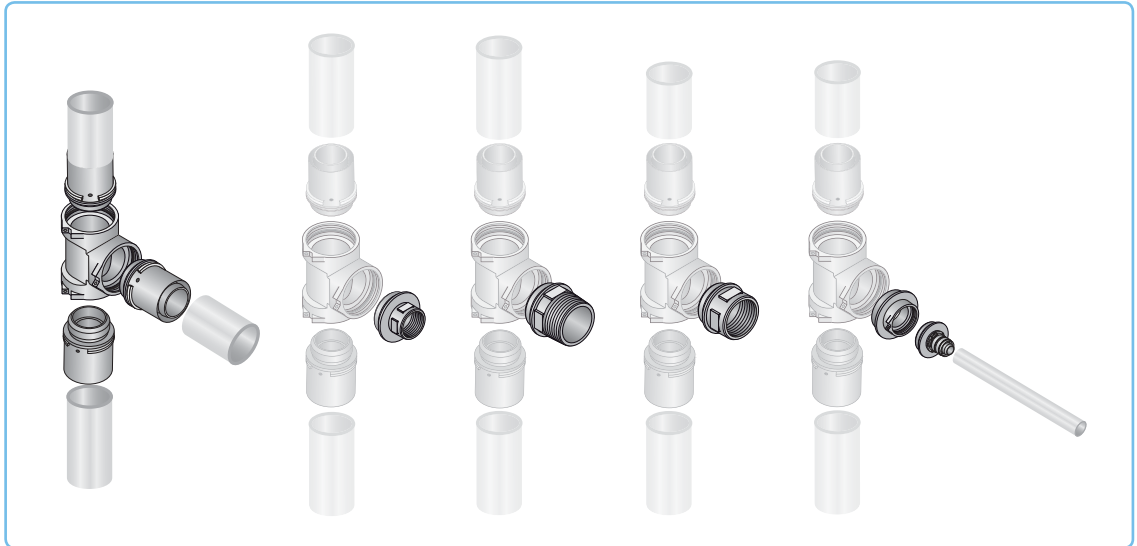

Fest enden av låsestiften fast til fittingsen med et klikk.

Kombinasjonsmulighetene gjør systemet svært fleksibelt

Modulsystemets oppbygning gir alltid en rask løsning. Uten lange leveringstider og ekstraomkostninger for spesialdeler.

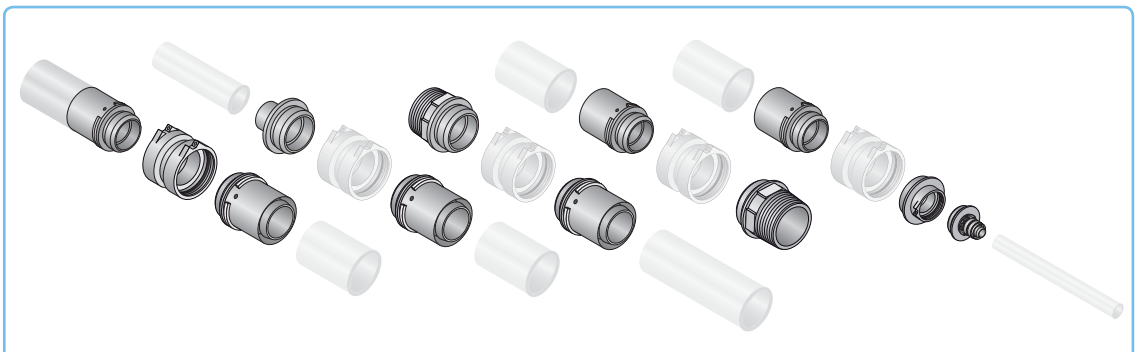

Eksempler av varianter med T-stykke

Eksempler med 45° albuer eller 90° albuer

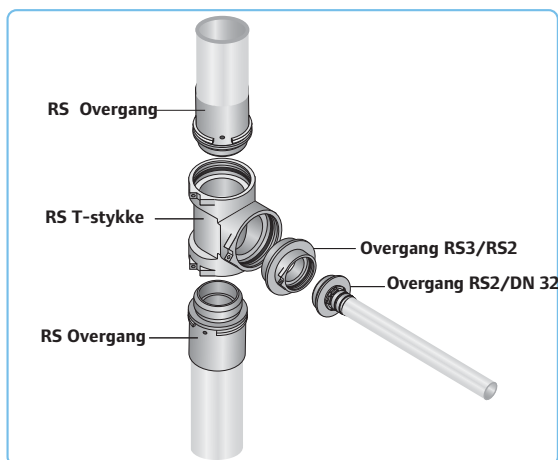

Eksempler med koblinger og reduksjoner

Eksempler

T-stykke med reduksjon

Nødvendige deler til denne forbindelsen

1 x Uponor RS T-Stykke

2 x Uponor RS Overgang 40-110 MLC

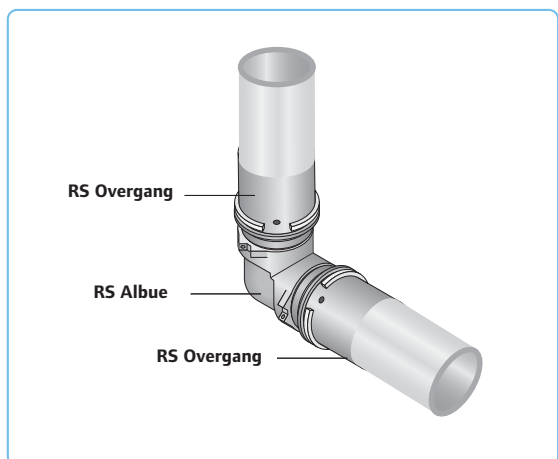

1 x Uponor RS Kobling, reduksjon

Uponor RS Overgang 25-32 MLC

Uponor Albue MLC

Nødvendige deler til denne forbindelsen

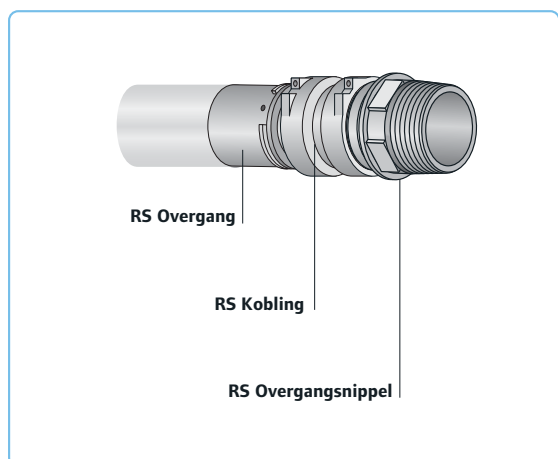

1 x Uponor RS Albue 90°

2 x Uponor RS Overgang 40-110 MLC

Uponor Reduksjonsmuffe MLC

Nødvendige deler til denne forbindelsen

1 x Uponor RS Kobling

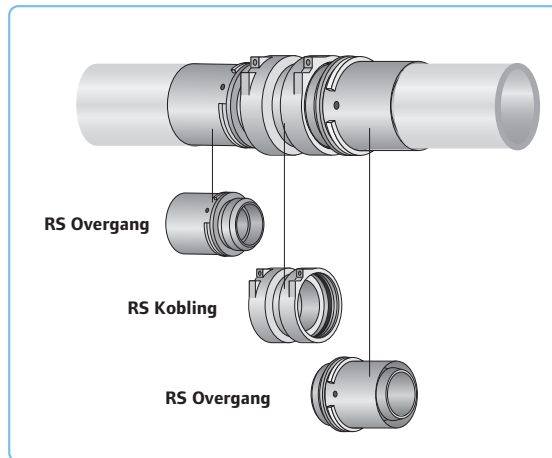

1 Uponor RS Overgang 40-110 MLC

1 Uponor RS Overgangsnippel

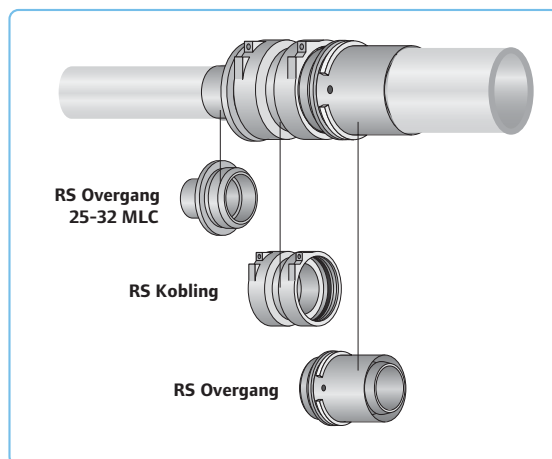

Kobling

Nødvendige deler til denne forbindelsen

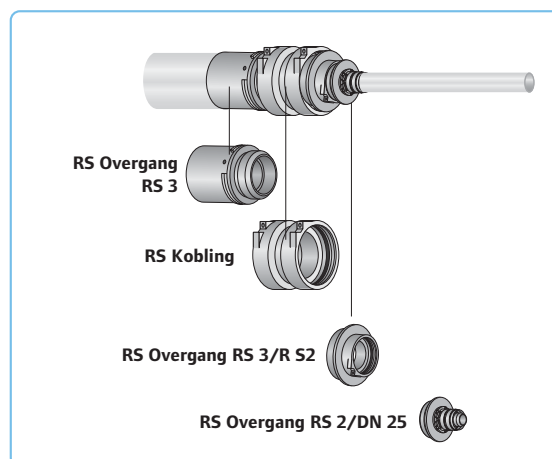

Kobling reduksjon, 75-110

Nødvendige deler til denne forbindelsen

Kobling reduksjon, 110 - 25

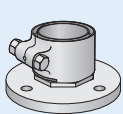

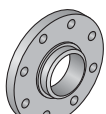

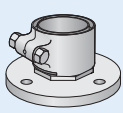

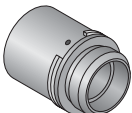

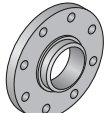

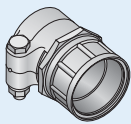

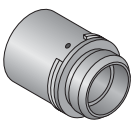

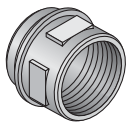

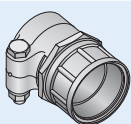

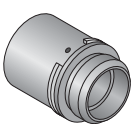

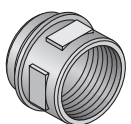

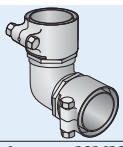

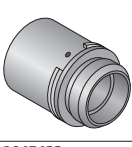

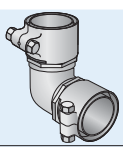

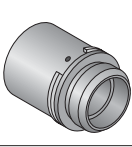

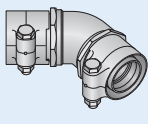

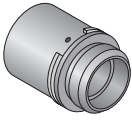

Nødvendige deler til denne forbindelsen
