

**Preservative treated  
wood**

Self-declaration that the used timber meets the minimum  
pollutant requirements in BREEAM NOR's 2016 checklist  
A20

This form must be filled out and signed by a legally responsible person for the building boards manufacturer, such as a technical director or a managing director. Chemicals to be avoided should not be present in the product in unbound, bound or natural form. Concentrations under the threshold value of 0.1% are accepted. It is assumed that the information in the A20 list is known.

**Providing incorrect information can have legal consequences.**

**MANUFACTURER:**

Fiberon Composites

**PRODUCT TRADE NAME:**

Composite Decking

**PRODUCT ID:**

Chemicals which are to be avoided<sup>1</sup>:

**Creosote, Arsenic and Chromium**

It is hereby confirmed that Fiberon does not use the chemicals listed above in the production of the olefin based composite deck boards. Fiberon however does use recycled wood and resin sources; so contamination is theoretically possible although highly unlikely.

<sup>1</sup> Note that the unwanted chemicals can be found under alternative designations. Find the complete checklist A20 in BREEAM NOR 2016 Technical Manual SD5075NOR
